

OFFER ENHANCED REPORT OPTIONS

Introduce deeper levels of interpretation through the EPIC platform. The EPIC system offers reports and features not available in Inscape's paper profiles through a variety of auxiliary features, ranging from composite group results to overviews of a team's interpersonal relationships. EPIC also gives organizations the capability to build group reports from data stored in the system, providing an analysis of team dynamics. As teams change, new group reports can be generated from existing data, adding new understanding without requiring more training time.

EXCLUSIVE ACCESS TO BEST-SELLING PROFILES

All eight of our Core Collection profiles are available online through EPIC, including:
